RE: Petition of AT&T for Expedited Review of Growth Code Denial by the Number Pooling Administrator Relating to Nashville Rate Center for Deloitte, Docket No. 05-00159.

On June 8, 2005, AT&T filed a petition for *Expedited Review of Growth Code Denial* for the Nashville Rate Center on behalf of its customer, Deloitte (Docket No. 05-00159). A determination was made that numbering resource utilization information was needed to continue review of the petition.

A telephonic request was made for the utilization information regarding the NXXs and NXX-Xs assigned to AT&T for the Nashville Rate Center, and the servicing wire center (switch). The utilization information was received on June 10, 2005, marked "Proprietary," and it appeared several blocks may contain sufficient sequential telephone numbers that could fill AT&T's customer needs. Another telephonic request was made for more specific information about number assignments from the 1,2,3,4 and 5 thousand-blocks.

On June 20, 2005, AT&T filed its response to Staff's telephonic request.

Lewis De Board, Utility Rate Specialist
